Dear Sir:

This is in response to the Final Office Action mailed September 22, 2006 setting a three-month period to respond. The response is being timely filed within two-months. A Declaration under 37 CFR §1.132 to transverse the rejection, is presented. It is believed this response places the claims in position for allowance, or in better form for consideration on appeal. Accordingly, reconsideration and allowance are requested.

Applicant requests an interview with the Examiner at the USPTO in which the Inventors can bring samples of commercial product and explain the Invention to the Examiner. It is

believed that such a demonstration will help the Examiner understand the invention, and how it is very different from the cited art. It is hoped that through such an interview, Applicant and Examiner can work to claim language that would be acceptable to both parties. Preferably such an interview can be held prior to the 3-month after final date of December 22, 2006.

Remarks begin on page 6 of this paper.
